CITY OF LESLIE

RESOLUTION NO. 2016-04 WATER/SEWER BILL COLLECTION POLICY – IRRIGATION/YARD METER

At a regular meeting of the Leslie City Council conducted on Tuesday, May 3, 2016 at Leslie City Hall, 107 E. Bellevue Street, the following Resolution was offered by Councilmember Fox and seconded by Councilmember Shuster:

WHEREAS, the City of Leslie established a uniform process for the installation, use and billing for yard meters that may be utilized by residences in the City for exterior use such as yard sprinkling, etc.

WHEREAS, an alternative to paying the full sewer charges on water used for lawn sprinkling or pool filling purposes at a residence, the City Council hereby encourages interested residents to install an irrigation/yard meter (yard meter) and associated backflow preventer at their expense which is for the specific purpose of measuring the amount of water used for outside (ie lawn, pool, garden) purposes. The City Council hereby establishes the following rules regarding the installation, use and billing for yard meters.

WHEREAS, all meters installed must meet the standards for "Water Meters" and "Backflow Preventers" as contained in the City's Ordinances.

WHEREAS, all yard meters will be purchased from the City in order to ensure that meters are of the correct specification. Meters can be purchased from the City at the regular cost that the City will incur. Payment for yard meters will need to be received before the homeowner receives the meter.

WHEREAS, Yard meters will need to be installed inside of the home by a licensed plumber. The fully installed meter will need to be inspected by a Department of Public Works staff member to ensure that the meter is properly installed. Rate adjustments will not be made until the meter is installed to the requirements established by the Department of Public Works.

WHEREAS, The City Council hereby determines that yard meters do not need to be read quarterly and instead directs Department of Public Works staff to read yard meters each September/end of third quarter billing cycle to determine the previous summer's water usage through the meter.

WHEREAS, City staff shall be charged with invoicing those residents utilizing yard meters for the actual usage reported by the Department of Public Works. Said bill shall be mailed in October with the regular 3rd quarter utility bills and be due and payable pursuant to the timeframes for the payment of the regular quarterly utility bills.

WHEREAS, the fee to be charged for water used through a yard meter shall be the regular water commodity charge only as set by the City Council. Since the yard meter, is a secondary meter at a residence, a second ready to serve charge shall not be charged for water used through a yard meter.

THEREFORE BE IT RESOLVED, that the City of Leslie approves Resolution 2016-04 to adopt the water/sewer and irrigation/yard meter policy.

This resolution shall be given immediate effect upon the passage by the Leslie City Council.
