 - Stated Mayor Zamora had a 'melt down'.
- Nancy Babin, 4342 Cinnamon Lane

Item 4**Unfinished Business****1. Water Update**

- A. City Manager Desentz presented the following water update from his Manager's Report:

“We continue to receive positive test results from various locations in the water system. Some of the areas have taken a bit longer to see iron levels fall below the 0.3 ppm threshold. Many of these areas are now well below that number. There are a few small pockets in our system that are above that number; namely, a few houses along N. Main Street. However, the numbers that have come back this week are an improvement over last week. We hope that this trend continues until all iron levels in the system are below 0.3 ppm.”

B. DPW Worker Tim Ryan shared water readings and knowledge from his Water Conference through the DEQ.
