Frederick of D. R. Frederick & Associates, Inc., last dated 03-20-2020 subject to the following site plan revisions and stipulations:

- move the fence to the pavement on the north side of the property
- not use barbed wire fencing
- if moving the building towards Hull Road it must stay behind the 60' setback requirement
- Additionally, if planning to add the office in the future the site plan must show the office behind the 60' setback requirement as well, which would adjust how far the building can move toward the road, and needs to be indicated on the plan

ARTICLE IX. - SIGNS

DIVISION 1. - GENERALLY

Sec. 98-571. - Purpose.

The purpose of this section is to permit such signs that will not, by their reason, size, location, construction or manner of display, endanger the public safety of individuals; confuse, mislead or obstruct the vision necessary for traffic safety; or otherwise endanger public health, safety and morals; and to permit and regulate signs in such a way as to maintain the aesthetic quality of the city, preserve property values, and support and complement the land-use objectives set forth in this chapter.

(Ord. No. 86, § 1, 5-3-1982)

Sec. 98-572. - Nonconforming signs.

- (a) Signs which were constructed and installed prior to the date of adoption of the ordinance from which this chapter is derived, and which signs do not comply with the provisions of this section shall be deemed nonconforming signs. No nonconforming sign shall:
- (1) Be changed to another nonconforming sign;
 - (2) Have any changes made in the words; or symbols used or the message displayed on the sign unless the sign is an off-premises advertising sign, or a bulletin board, or substantially similar type of sign, specifically designed for periodic change of messages;
 - (3) Be structurally altered so as to prolong the life of the sign or so as to change the shape, size, type or design of the sign;
 - (4) Be re-established after the activity, business or usage to which it relates has been discontinued for 30 days or longer; or
 - (5) Be re-established after damage or destruction if the estimated expense of reconstruction exceeds 50 percent of the reproduction cost.
- (b) Nonconforming signs which have been abandoned for a period of 90 days shall be removed in accordance with section 98-573.

(Ord. No. 38, § 6.2.3, 3-11-1955; Ord. No. 80, § 1, 8-18-1980; Ord. No. 86, § 1, 5-3-1982)

Sec. 98-591. - Approval by planning commission; variances.

All signs permitted by this chapter, excepting signs permitted under subsections 98-612(1), (2), (4), and section 98-618 must have the advance approval of the planning commission. In obtaining such approval, the applicant shall submit to the planning commission plans for the construction and design of such sign or signs adequately describing the size, dimensions, location and appearance of such sign or signs. No such

sign shall be erected or affixed until approval by the planning commission. When, in its judgment, the public welfare will be served and the use of neighboring property will not be injured thereby, and when a literal enforcement of the provisions of this section would result in unnecessary or undue hardship due to conditions peculiar to the particular property which are not the result of the actions of the applicant, the planning commission may, in a specific case, vary the application of the regulations and requirements of this division, provided that any variances to be granted hereunder shall be in harmony with the general character with the district and the intent and purposes of this chapter. The granting of such a variance shall in no way constitute a change in the basic requirements of this article as to signs on other properties, nor on the property wherein the variance is permitted. Such variances may be in the following forms, or any combination thereof.

- (1) *General variance.* A general variance whereby a variance from the particular requirement is permitted as to the particular sign contemplated, without time or other limitation.
- (2) *Temporary variance.* A temporary variance whereby a sign varying from the requirements of this article is permitted to be erected or affixed for a time limited and specified by the planning commission.
- (3) *Conditional variance.* A conditional variance whereby a variance is conferred authorizing the contemplated sign to be erected or affixed, but subject to specific limitations to be imposed by the planning commission, subject to termination in the event such limitation shall not be complied with or the conditions motivating the granting of such variance shall have materially changed.

(Ord. No. 38, § 6.2.3, 3-11-1955; Ord. No. 80, § 1, 8-18-1980; Ord. No. 86, § 1, 5-3-1982; Ord. No. 177, § 1, 10-15-2001)

- A. A sign not expressly permitted by this Ordinance is prohibited. Unless otherwise permitted in this Chapter, a sign shall pertain to the use or lot on which it is located, with the exception of temporary signs as authorized in B, below.
- B. Special signs may be erected by governmental agencies, charitable, or other nonprofit organizations on a temporary basis without a permit, but shall be subject to the following limitations:
1. No more than five (5) signs shall be displayed at one (1) time. They may not, without the prior permission of the Zoning Administrator be placed in any right-of-way or be placed within the setback side yard, clear vision area or other space required by applicable regulations.
 2. The display of signs shall be limited to twenty-three (23) days per occurrence.
 3. Signs shall have a maximum size of forty-eight (48) square feet in area, and a maximum height of five (5) feet.
 4. Any sign shall not be erected without prior notification to the Zoning Administrator.
- C. Measurement of sign area and height.

1. The entire area within a circle, triangle or parallelogram enclosing the extreme limits of writing, representation, emblem, or any figure of similar character, together with any frame or other material or color forming an integral part of the display or used to differentiate such sign from the background against which it is placed; excluding the necessary supports or uprights on which such sign is placed, unless the supports or uprights contain writing, representation, emblems or any figure of similar character, in which case the area of such shall be computed within the total sign area.

2. Where a sign has two (2) or more faces, the area of all faces shall be included in determining the area of the sign, except that where two (2) such faces are placed back to back and are at no point more than two (2) feet from one another, the area of the sign shall be taken as the area of one (1) face if the two (2) faces are of equal area, or as the area of the larger face if the two (2) faces are of unequal area.
3. In the case of a sphere, the total surface area of the sphere shall be divided by two (2) for purposes of determining sign area.
4. The height of any sign shall be measured from the mean grade.

 - G. No sign shall be placed within or above any public right-of-way or upon any utility pole except as otherwise permitted within the right-of-way of a state-designated highway in accordance with the regulations pertaining thereto, and except for projecting signs as permitted in this Chapter.

 - I. The Zoning Administrator may permit a sign location required by Section 98.575 to be moved up to five (5) feet in any direction, provided that all of the following requirements are met. Sign location changes not meeting these requirements shall require a variance.
 1. The requested relocation is necessary because the location dictated by the Ordinance is not physically capable of accommodating the sign, provided that the conditions were already present at the time the sign is requested, and that the conditions were not created by an action of the applicant, owner, or lessee.
 2. The relocated sign does not create a hazard to traffic, pedestrians, or adversely affect other signs or properties.
 3. The new location is on the same property and does not encroach on any road right-of-way or access easement.
